

EARLY INTERNATIONAL SQUASH MATCHES

Before world, regional and sub-regional championships brought together national teams for events, international ties (test matches) were played between squash nations.

Here is a list up of early ones (pre-1973/4) after which fewer were played as events took over, to which more need to be added, if additional information is available.

(In many cases the dates of ties were recorded as the beginning of the season rather than the actual date if after new year of the season)

Listed by start date & alphabetically.
